Hello, Ben,

The AreaRAE LIVE Monitoring data is a little finicky. It works best in Mozilla Firefox. If you can use Firefox, you'll see an interface as shown in the attached "AreaRAE LIVE.png" photo. The username and password are on the monitoring page.

For the real time air monitoring, in order to not bog down the page loads, the system only loads 50 records at a time. The process below will walk you through viewing all of the data. See the attached PDF for screenshots. This process works in all browsers. (No Firefox-only limitation.)

- Access the Real Time Air Monitoring data by hitting the button "Real Time Air Monitoring" on the Dashboard.
- Expand the navigation menu by hitting the small down arrow in the upper left of the screen.
- Using either the slider bar, the "page" arrows, or by entering a record number, navigate through the records. (50 records displayed at a time, with the number box displaying the record number for the top line.)

If you have other questions or problems with the site, don't hesitate to reach out.

Thank you,
Robert Sproles

Thanks Jacob! Can we also get access to the AreaRAE LIVE Monitoring?

Also the real time air monitoring section does not have the 3/15/14 data. When will it be posted?

All,

Please find a link to the CRA web portal along with the login information. This will allow you to access our sampling data. Please let me know if you have any problems with access.

Hi Jake,

My colleague contacted you earlier – I apologize if we woke you. When you get a chance, the EPA is requesting a copy of CRA's air monitoring plan.

Thank you in advance, please call or email with any questions. Cell: 773-587-9023.

Brennan Johnson
